Dode Moshe (Old MacDonald Had a Farm) --Track 38

Rahel writes: "Note that each animal has its own sound that it makes and has a word to describe how it makes the sound (i.e. pu-ah for a sheep and a cow, or no-vay-akh for a dog barking etc.) and that either male or female animals are listed here. I enjoy this song because the animal sounds are so very distinct and, in some instances so very different than the American animal sounds!!"
